GAS EXPLOSION KILLS SEVERAL MEN IN CHICAGO

EXPLOSION OCCURRED IN THE
"BLOODY NINETEENTH" WARD,
WEST SIDE

EXPLOSION OCCURRED IN PAPER
PLANT FROM GAS, COUNTY
OFFICIALS BELIEVE

(By United Press)

Chicago, March 29.—Ten people were torn to death and fifty injured today in an explosion which rocked "Little Italy" in the heart of Chicago's tenement district.

Investigation led the authorities to believe the blast started in the paper warehouse of Joseph Well company. Damage will run close to one million, police estimated. This includes the loss of several buildings and homes in the vicinity. One hundred families were made homeless. Only a few of the mangled bodies pulled from the ruins have been identified.

Chicago, March 29.—Little Italy was rocked by an explosion today in which perhaps six were killed and a score wounded.

The blast occurred in the factory of Joseph Well Paper company of Fourteenth and Halsted streets, which is in the "Bloody Nineteenth" ward where Chicago's Italians reside.

Officials of the company said they believed the explosion was caused by a gas leak. They said that they had no labor trouble or feuds. Four years ago a tenement house was blown up when the Well plant was destroyed by an explosion of gas from a leaky main and sixteen people were killed.

Police immediately went to work on the theory that the explosion may have been caused by a bomb as part of the political feud that has waged in the "Bloody Nineteenth" ward for years.

A torpedo cap was found by Chief Detective Hughes who reached the scene soon after the explosion.

Police reserves rushed from all over the city when the general alarm of the disaster was given. Fire crews from all points arrived.

The explosion was not followed by fire so fire fighters became engaged in digging the dead and injured out of the wreckage. Three dead had been taken out and it was estimated that at least three others were under the debris. The injured were taken to improvised hospitals.

The three victims who were recovered were badly mangled. It is believed identification will be difficult if not impossible.

The explosion was heard for miles around. Heavy plate glass windows were smashed within a radius of a mile. Pictures in homes crashed to the floor. A cordon of police was immediately thrown about the scene to keep back the frantic Italians who rushed to the scene to learn if any of their relatives were injured.

Thousands of Italian men, women and children held back in repeated efforts to rush the police line, gasped and then fell into silence as they saw the two bodies with their heads blown off pulled out put on stretchers. The foot of a girl still neat with a satin pump was pulled out of the wreckage and placed on a canvas covered stretcher waiting for the remainder of the body.

A horse with its legs blown off was still alive when firemen arrived and its moans of misery and suffering were ended by a revolver shot.

The Well Paper company was surrounded by little shabby cottages inhabited by Italians. Many of these little homes were smashed to atoms and the occupants bleeding and bruised forced to the streets.

These unfortunates were cared for by their more fortunate fellow countrymen who took them into their homes and cared for them.

The feet of some of the mob, held back by the police, were cut when plate glass was hurled from the windows into the streets and cut their shoes. Police estimated the loss from the explosion at nearly the million dollar mark. This includes the factory and the homes nearby.

Limit to Contention

Jud Tunkas says the settlement which lasts more than 24 hours is liable to degenerate into common lawlessness.

60 TYPHOID CASES AT 'U'; IMPURE MILK AT UNION BLAMED

PRESIDENT COFFMAN IN STATE-
MENT SAYS SITUATION IS
UNDER CONTROL

HEALTH DEPARTMENTS OF TWIN
CITIES, STATE AND "U" CO.
OPERATE IN INQUIRY

Minneapolis, March 29.—An epidemic of typhoid fever at the University of Minnesota was recognized publicly yesterday and a force of state health department officials under Dr. A. J. Chesley, state epidemiologist, began a searching investigation of the source. Sixty-four cases have been identified or isolated for further blood tests. President L. D. Coffman attributed the outbreak to milk used in the Minnesota Union, and in a public statement said the situation was under control.

Recognition of the disease as typhoid fever came when blood tests were made by state authorities of 29 cases of illness reported to the Minneapolis health department last Friday by Dr. John Sundwall, in charge of the University of Minnesota health service, as intestinal influenza.

Of the cases so far diagnosed or placed under surveillance, 61 are men. The three cases where women students are sufferers are now undergoing blood tests, with the assumption that they have typhoid fever.

WILL INVESTIGATE ACTIVITY OF REDS

ISSUE PAMPHLETS IN HARTFORD,
CONN., CALLING WORKMEN TO
SEIZE FACTORIES

(United Press)

Washington, March 29.—Agents of the department of justice will investigate the reported activities of soviet agents in Hartford, Conn., John A. Hoover, chief of government anti-bomb squad, said today.

Hoover wired agents at Hartford to send to Washington copies of pamphlets mysteriously distributed on Monday night calling on workmen to seize factories and set up a soviet. The pamphlets were signed by the communist party of America.

Stock Prices Make Advance in New York

(By United Press)

New York, March 29.—Stock prices advanced in the afternoon trade today largely through the influence of the American Telephone company's advance in dividends.

The telephone company ran up six points on comparatively few shares reaching 197, the highest price since June, 1919.

An initial dividend of one per cent on allied chemicals was another favorable influence.

TIME HAS EXPIRED TO INTRODUCE BILLS IN THE LEGISLATURE

VARIOUS BILLS ARE PASSED AND
OTHERS ARE INTRO-
DUCED

(By United Press)

St. Paul, March 29.—The legislative session is drawing near a close.

No more bills may be introduced except with the consent of the governor. Introduction of bills in the senate ended today. Nearly one thousand bills had been introduced up to noon.

A bill was introduced for compulsory instruction in agriculture, horticulture and industries in public schools. The bill would make this effective Sept. 1, 1923.

Another measure would create an interim commission to work out some plan for increasing teachers' pension funds. It is inadequate.

A bill was passed permitting persons ill on election day to vote by mail. Another measure passed would permit mutual insurance companies to carry workmen's compensation insurance.

Twenty-seven bills were introduced and the senate adjourned until Wednesday morning.

New pure food and cold storage laws submitted by the interim commission after two years' investigation will be voted on Friday in the senate. The bill generally complies with the federal pure food law.

Chief of Police Crepeau of St. Paul and others appeared before the house judiciary committee today in opposition to the state safety commission bill. The house appropriation committee indefinitely postponed the measure appropriating \$50,000 state aid for experimenting in determining the value of peat as fuel.

Close Season For Game Proposed

Skunks and muskrats have some friends in the legislature. Senator Sageng of Dalton and Rep. Wright of Fergus Falls, offered bills in their behalf today.

Senator Sangeng wants an eleven months closed season on skunks and muskrats.

Rep. Wright would enforce a closed season the year round on skunks, weasels, badgers, raccoons and civet cats on the belief that they may become exterminated.

COST OF LIVING IS COMING DOWN

PRICES IN NINTH FEDERAL RE-
SERVE DISTRICT DROP MAT-
TERIALLY SINCE DEC. 1

(United Press)

Minneapolis, March 29.—The price of clothing in the ninth federal reserve district declined 32 per cent from December 1 to March 1, according to federal reserve bank reports made public today. Food prices declined seven per cent, it was shown.

"The cost of living is coming down," said the report. "We have secured reports from important cities in this district covering the price of retail food, clothing, rent, fuel and light and gas."

On these items an average decline in price of 9.4 is indicated, the report said.

Minneapolis prices declined 11.3 per cent; Duluth, 7.3 per cent; Helena, Mont., 16.2; Grand Forks, 10.5; St. Paul, 7 per cent.

Credit conditions in the northwest improved materially in February in the first half of March, the report said.

Prices for building material were reported firm except as to lumber which declined some in anticipation of spring needs.

The average price of farm land in Minnesota increased four per cent during the year ending March 1, according to the report. Average price for farm lands were reported as follows:

Minnesota, \$109 an acre; Wisconsin, \$101; South Dakota, \$91; North Dakota, \$44, and Montana \$29.

Building permits in nine large cities in the district show an increase of 34 per cent in February, as compared with January. Unemployment in February increased 17.4 per cent compared with January.

COMMUNIST UPRISING IN GERMANY IS SUPPRESSED

(United Press)

Berlin, March 29.—Police today drove three thousand communists from the big Leuna works near Essen, killing a number of reds and taking one thousand prisoners.

Minister of Safety Severing, said the communist army which has been drilling behind the factory walls, offered little resistance.

Severing declared the communist uprising had been crushed.

GERMANY PREPARES FOR NEW WAR, SAYS GENERAL FAYOLLE

ALLIES MUST ENFORCE OBE-
DENCE OF TREATY NOW, DE-
CLARES HERO OF SOMME

Paris, March 29.—Marshal Fayolle, who commanded the French group of armies at the battle of Somme and later commanded French divisions on the Italian front, declared in an exclusive interview that Germany was earnestly preparing for a new war, and that unless the allies took firm action at once never would carry out the Versailles treaty.

"The Germans are pursuing military preparation in an underhanded manner," the French warrior declared, "and the allies must act with determination now, for later Germany will be so strong that we will be unable to impose our will upon her."

MRS. GEO. PULLMAN DIED YESTERDAY

IN CALIFORNIA—ONE OF WEALTH-
IEST WOMEN IN THE
WORLD

(United Press)

Chicago, March 29.—The body of Mrs. George Pullman, one of the wealthiest women in the world, is to be brought back here for burial.

Mrs. Pullman died yesterday in Pasadena, California.

The dowager of Chicago society was 82 years old. She was the widow of the founder of the Pullman Car company and the mother-in-law of Frank O. Lowden, former governor of Illinois, and late presidential aspirant.

Britain Offers To Sell Mesopotamia Oil Fields to Americans

London, March 29.—Great Britain has offered to sell American interests a substantial portion of the disputed Mesopotamian oil fields, it was learned from authoritative sources today.

This fact developed simultaneously with the information that the British government has prepared a "white paper" presenting its side of the controversy to date, intending to publish it as soon as the United States grants permission to make public the text of Britain's answer of Feb. 28 to the American oil note of Feb. 26.

PRESIDENT AND CABINET CONSIDER R. R. SITUATION

PRESIDENT WILL CALL CONFER-
ENCE SHORTLY TO DISCUSS
MATTER

RAYMOND CLAPPER

(United Press Staff Correspondent.)

Washington, March 29.—Governorment aid in rehabilitation of railroads was discussed at the cabinet meeting today. Very deep concern was expressed over the situation and belief was general in the cabinet meeting that the government should do something to aid the roads.

It was announced President Harding shortly would call into conference the chairman of the interstate commerce commission and the heads of the railroad labor board to discuss this situation. No specific plans were decided on, it was said.

POLICE TAKE NEW TRAIL IN CONAMA MURDER MYSTERY

ARE OPERATING ON THEORY MO-
TIVE OF MURDER WAS
ROBBERY

(United Press)

Rochester, Minn., March 29.—Police here today picked up a new trail in the mysterious murder of Wm. Conama on the old theory that robbery was the motive.

Elvin Bryant, employed in a local cafe, told police he heard two ragged strangers talk about Conama in the latter's pool hall on Saturday before the murder, a week ago last Monday.

Bryant said he overheard one of the strangers tell his companion Conama "always carried a wad of dough." The man went on to describe the size of the "roll" Conama usually carried.

The other fellow then asked when Conama was "going to take that trip to St. Paul." His companion said he was leaving Monday and that he drove a Nash car.

Bryant was closely questioned, and police believe he is telling the truth about the conversation. He gave a good description of both men and said he was certain he could identify one of them positively if he saw him again.

Abandon Effort To Deport O'Callaghan

(United Press)

Washington, March 29.—The effort to deport Donald O'Callaghan, lord mayor of Cork, begun soon after he landed in this country, has been dropped. Officials of the labor and state departments, which originally took part in the O'Callaghan proceedings, today display little or no interest in his movements.

STILLMAN DAUGHTER SEEN AS CONCILIATOR

SPECULATION ARISES WHEN THE
NEUTRAL MEMBER OF FAMILY
VISITS MOTHER

New York, March 29.—That all the children of Mr. and Mrs. James A. Stillman have joined their mother at a hotel in Lakewood, N. J., is regarded as significant by spectators of the spectacular divorce suit.

Miss Anna Stillman, who was reported to have refused to take sides in the dispute, spent Easter Sunday with her mother.

The daughter has been looked upon as conciliator in the troubles of her parents and her visit to her mother aroused speculation as to whether she was the bearer of messages.

Attorneys of both Mr. and Mrs. Stillman are awaiting with ill concealed impatience the decision of Justice Morschauer, which is due to be handed down this week and which, they believe, will not be limited to a consideration of the specific phase of the case, the payment of alimony.

The attorneys believe that Justice Morschauer will consider the nature of certain letters figuring largely in the case and will comment upon their competence. These include letters said to have been written by Mrs. Stillman to her husband and letters alleged to have been written by Mrs. Stillman to Fred Beauvais, the Indian guide, charged by the banker with intimacy with Mrs. Stillman.

Both sides appear to be agreed that the letter alleged to have been written by Mrs. Stillman to her husband cannot be used by Stillman in his divorce action. Nevertheless if Justice Morschauer should establish a legal precedent the letters will be the most damaging against Mrs. Stillman.

Whether Beauvais' alleged letter to Mrs. Stillman can be introduced depends on many things—whether they ever were received by Mrs. Stillman, for example. She denies she ever saw them and Beauvais charges the letters are forged.

Mrs. Stillman's amended answer to her husband's suit came as a surprise to Stillman's attorneys. It was said today. The naming of Florence Leeds, the chorus girl, took the lawyers by surprise.

POOR MANAGEMENT COST THE RAILROADS MILLIONS A YEAR

IN THE OPINION OF W. JETT
LAUCK, COUNCIL FOR RAIL-
ROAD EMPLOYEES

SAYS INEFFICIENT MANAGEMENT
AND NOT NATIONAL AGREE-
MENT CAUSE OF TROUBLE

(United Press)

Chicago, March 29.—Inefficient management is costing railroads of the nation a billion dollars a year, W. Jett Lauck, counsel and labor economist, told the United States labor board today.

Lauck appeared for the railroad employees to show why the national agreement between employers and employees should not be abrogated as asked by railroad executives.

Lauck said the railroad controversy was due to inadequate management and not the national agreement.

"If the railroad management was backed by reasonable efficiency and had available for its use a proper amount of credit or capital, labor could have shown a decline under the national agreement," said Lauck.

Former Service Man Nominated For Mayor In Faribault Primaries

(United Press)

JOHN BURROUGHS, GREAT NATURALIST, DIED THIS MORNING

WAS ON TRAIN ENROUTE FROM
CALIFORNIA TO HIS NEW
YORK HOME

WAS PLANNING TO CELEBRATE
HIS 84TH BIRTHDAY WITH
FORD AND EDISON

(United Press)

New York, March 29.—The death of John Burroughs was believed by the superstitious as bearing out the belief that great men always die in a circle of three. Champ Clark died recently. His demise was followed by the death of Cardinal Gibbons. Today John Burroughs died.

New York, March 29.—John Burroughs, famous naturalist, died at 3 A. M. today on a train which was enroute from California to his home at West Park, New York, according to a telegram received today by Dr. Walter Gray Crump here.

The telegram was sent from Buffalo, New York, by Dr. Clara Darrus, the naturalist's secretary, which indicated Burroughs' death occurred shortly before the train reached that city.

Friends and relatives will meet the body at Poughkeepsie.

Dr. Crump's intimation was that Mr. Burroughs, who had spent the winter in Pasadena, California, became ill after his train left Chicago on the eastward journey. The telegram which was sent to Dr. Crump by Dr. Darrus requested him to meet Burroughs at Poughkeepsie.

When Crump was making preparations to start for Poughkeepsie the second message arrived saying that the naturalist was dead.

Burroughs had planned to celebrate his 84th birthday with Henry Ford, H. S. Firestone and Thomas A. Edison April 3rd, and was returning from the coast with this idea in mind.

Seven Persons Are Held in Connection With Davies Murder

(United Press)

Superior, Wis., March 29.—Seven persons were held incommunicado by the Superior police today in connection with the murder of Mrs. Maude Davies last Wednesday.

All under arrest are friends and acquaintances of the girl who was strangled to death in a candy shop owned by R. L. Casino. The shop was robbed. Police scouted the robbery theory however and are holding five men and two women believing jealousy may have been the motive. C. H. Olson, of St. Paul, was brought here today by police and is being closely guarded from questioners. He is said to have important information on the case which will not be divulged until the inquest Thursday. Police would give no hint as to what connection Olson has with the case.

Legion Starts Drive

St. Paul, March 29.—The state American Legion started a drive on the legislature today for final action on the Legion's legislative program.

The Intermediate department will hold their semi-annual election at the church at 7 o'clock this evening.

o o o

The attendance suffered Sunday because of the inclemency of the weather. But half the average number of beginners and primary pupils were present which effected the general attendance.

o o o

The special Easter offering was the largest ever given with many envelopes of Sundays absentees to be sent in yet.

o o o

The Camp Fire Girls add much to the interest of the Sunday evening worship by their music.

o o o

The secretaries will have a big task this week in making out the quarterly statements for the individual members.

Presbyterian Church Notes

Easter dawning clear and bright, though cold, brought out many to worship. The morning sermon and music were an inspiration.

o o o

The afternoon service was beautiful and we were glad to welcome the Ascalon Commandery of the Knights of Templar as our guests.

o o o

In the evening Mrs. Johnson's solo added to the days pleasures and benefits for we know she sings to the glory of God.

o o o

The Easter program in the Sunday school was received by a very good attendance. The primary people taking part were trained by Miss Georgia Brown and showed much patience. Those taking part from the main Sunday school did well and we appreciate their willingness to help. The offering went to our mission work in Siam.

o o o

Last year the Sunday school pledged themselves to raise \$300 for the benevolences of the church. Our church year closes March 31 and we have gone over the top.

o o o

Tuesday evening the boy's class will meet at the home of Rev. Kelly. All boys are asked to be out. The contest between these boys and the D. Y. B. class closed Sunday and the girls won. They are now waiting for the banquet promised them!

o o o

Thursday evening the regular prayer meeting will be held in the church at 8 o'clock at which time the study in Romans will be continued. It is hoped that all will remember this important meeting for it is from the prayer meeting the power of the church comes.

o o o

Friday evening the Christian Endeavors are asked to meet at the church at 7:30 so that we may attend the People's Congregational church to hear Miss Bradt, state C. E. worker. Let every one be on hand, bringing a friend.

o o o

Thursday, April 7, the annual meeting of the church will be held at 8 o'clock. Please remember the date as important matters of business are to be discussed.

THRU SALVAGE MILL OF SALVATION ARMY

Not many months ago a high salaried salesman of boiler supplies met with large financial reverses. Hard on the wheels of these came the news of the death of his wife and children. He broke under the strain and went down and down until he tasted the dregs of life.

The Salvation Army found him. He became an inmate of an Industrial Home. He worked with his hands and his head. He helped sort and bale old paper. He collected old clothes, helped sort, clean and mend them. He began to take a new interest in life.

He asked for an opportunity to help in the furniture repair department where old, discarded furniture is rebuilt, refinished and made fit for use. He helped in this department for a time.

Every day he was in the Industrial Home he was paid a wage, ranging from 10 cents to 20 cents an hour. In addition he was given his room and board. He felt he was self-supporting. He started a bank account and in a few months felt ready to face the battles of life again. He had seen the Salvation Army minister to the needs and furnish the homes of thousands of needy persons and families.

A letter just received from him says:

"Thanks to the Salvation Army Industrial Home, I am today holding down a job as chief engineer in charge of a big boiler battery here. I am making \$50 every week and saving almost half of it. I had plumbed the depths of despair when you found me, cared for me, gave me a new lease on life. The knowledge I gleaned from the books in your reading room of evenings, the friendship I made in the Industrial Home, and the ideal always held before me in the living example of the men I met who had been in your home before, did it."

CHARTER AMENDMENTS

All amendments to the city charter are designed to reduce taxes. They will all doubtless carry if the voters show enough interest to consider them, for the constantly rising tax rate of the last year or so should compel consideration.

It should be remembered that if a voter votes the city ticket and does not vote the amendments he votes against the amendments.

Amendment No. 1 is for a correction of the charter to make it read as the charter commission intended it should read. This will save the taxpayers about \$3,200 a year now, and more later if more streets are built. This provides that the interest paid on street paving by the property owners be placed in the interest fund to pay the interest on the bonds instead of in the fund itself, thereby necessitating the levying of interest through the taxes.

Amendment No. 3 will change the charter to comply with the amendment to the constitution adopted last year by the voters of the state which will permit the city to assess railroad property for local improvements. For instance: Unless the amendment carries the city will be compelled to pay for the paving of the railroad right of way at Oak street. If it carries the railroad can be assessed for its share. This will apply on any street along railroad property where improvements are made. This alone should bring every voter to the polls.

An article will appear Wednesday explaining Amendment No. 3.

TAXING ROYALTIES

The senate is now considering a bill to tax royalty payments received by owners of land containing or producing iron ore. The attorney general is given power to collect the tax.

Some legislators just love to introduce bills to soak somebody and disregard all legal questions. It is a puzzle why the many lawyers in the house can not or do not stop bills that are obviously impossible when enacted into laws. Apparently the house members pass bills to get them out of the way, or just to get credit (if such it be) for voting for a measure, especially if the bill is aimed at the iron industry.

The house passed the above measure by a large vote. In the debate the statement was made that 80 per cent of the money paid as royalties went to non-residents.

We will add that much of the money thus paid originates outside of Minnesota and never passes into or through Minnesota to reach the recipient. The recipient lives in Ohio, New York, California, or any other state. A fine chance has our attorney-general to apply Minnesota laws in Ohio, New York, or any other state. It does not require an experienced lawyer, or a lawyer at all, to know that it is impossible to tax the money of a man living in another state, more particularly one not doing business in Minnesota.

If then, it is impossible to collect the tax levied against 80 per cent of the royalties paid to people living in other states, why punish those few people getting the 20 per cent. They are being punished for living in Minnesota.

The sum thus raised would barely exceed \$100,000. Is Minnesota so near bankruptcy that all kinds of drastic legislation must be applied to a few of its citizens? It is incomprehensible why such legislation should ever originate, even in southern Minnesota from whence this bill comes.

Small Things Cause Discord.

It isn't the long journey on foot that makes you footsore but it is the grain of wheat in your shoe or the wrinkle in your sock. It isn't the thousand miles your eyes run that wears it out but the grain of sand in the bearings. Little things make discord. Little things disturb our happiness.

SUES FOR DAMAGES

Cuyuna Village Man Claims He Side-Stepped Range Bus and Bumped into Crosby House

Hugo E. Olson, by Edward Olson his guardian, residents of Cuyuna village, vs Fred Magee, doing business as the Cuyuna Transportation Co., is the title of a new suit started in district court wherein young Olson claims \$349 damages to his automobile and \$500 personal injuries.

The complaint recites that Olson encountered the bus as its driver Horace Humphrey was backing in a Crosby street in violation of traffic rules and that Olson, to avoid being

hit, ran on to a cement sidewalk, skidded past a telephone pole and then smashed his car into the back porch of a Crosby man named Johnson.

An answer filed by the transportation company alleges that Olson was negligent and careless, that he did not have his car under control and that he was driving at excessive speed, 35 miles an hour, when the accident occurred. George W. Freerks of Cuyuna is attorney for the plaintiff and C. L. Benedict for the defendant.

What is Dis-ease?

Dis-ease is lack or excess of function in any part of the body. All function is controlled by mental impulses from the brain, therefore the cause of dis-ease must be an interference with the line of communication between the brain and the dis-eased part. It necessarily follows that the only permanent way to do away with the dis-ease is to adjust its cause and thus restore free communication. Chiropractors do this by adjusting the displacement that causes the obstruction. Ninety-five per cent of the obstructions are at the Spine.

"SEEING BRAINERD FIRST" TOURS

Next Visit Wednesday Afternoon, 4 P. M. March 30, to be at Fruit pany and Creameries

ATTENDANCE IS INCREASING

A. C. Ebert, Manager of Fruit Company, Will Have Rosy-Cheeked Apples for Guests

The next of the "Seeing Brainerd First" tours will include the inspection of the Brainerd Fruit Company at 809 Front street, the Brainerd Cooperative creamery at 315 South Broadway and the Brainerd Creamery Co. at 915 Laurel street.

The tourists will meet at the Chamber of Commerce at 4 o'clock in the afternoon, Wednesday, March 30, and march in a body to the Brainerd Fruit Company where the manager, A. C. Ebert, will distribute big, rosy-cheeked apples as he takes the company through his plant. Charles Battle of Minneapolis, general manager of the S. G. Palmer Company, interested in the Brainerd company, will make it a point to be on hand and assist in receiving the guests.

At the Brainerd Cooperative Creamery, Mr. Hanson will explain the operation of butter making and will have buttermilk for the guests.

At the Brainerd Creamery Co., 915 Laurel street, the plant will be open for the inspection of visitors and every courtesy will be shown the party.

The court house trip last Wednesday assembled 75 people, showing the idea meets with favor. Members and friends of the Chamber are asked to join the sightseeing trip.

Coming dates are the telephone exchange on April 6 and Kampman's sash and door factory April 13.

SALVATION ARMY

As: for Usable Garments, Demand for Children's Clothes, Call Up 84

Have you any usable garments in your attic or closets that are of no value to you. If so, will you give them to the Salvation Army. Ring up Capt. Olsen and he will gladly come and get them. Just now, Mrs. Capt. Olsen has quite a demand for children's clothes, two especially needy cases are pressing just now, one a family with three children, two of school age, the father out of work. Another family with five children, four of school age, all boys. Ring up 843 and ask for Mr. or Mrs. Olsen.

The captain's supply of clothes and shoes so generously contributed to this work earlier in the season, is completely exhausted and the calls for both adult and children's clothes are very heavy at this season. Phone 843 and ask for Capt. or Mrs. Olsen.

AMUSEMENTS

At the Lyceum

Tonight Pearl White bows herself out of the Lyceum theatre, where she has enjoyed an exceptionally run in the William Fox production "Tiger's Cub."

Everybody who has not seen this picture should take advantage of this last opportunity to witness one of the most vivid portrayals of Alaskan life ever shown on the screen.

Action of the kind that lifts one out of his seat by its very impetuosity; suspense that makes one clench his fists in tense anticipation; characterization so real that it leaves an indelible impression upon the mind are a few of the elements that make this picture so eminently worthwhile.

Clyde Cook is a scream in "Don't Tickle" a two part comedy.

"Guile of Women"

"Didn't I tell you about woman? By lies she makes herself strong, and by lies she makes man weak!"

That is the warning given Hjalmer Maartens (Will Rogers) by his friend Skole (Bert Sprout) in the "Guile of Women" which comes to the New Park theatre for two days, commencing today. The two are sailing west aboard the White Bear Line's oil steamer, Almaden. Yal, thought an heart an idealist where women are concerned, is inclined to Skole's cynical view, because of his unhappy affair with Hulda, his sweetheart in the "old country."

Skole tells Yal that all women are designing and deceitful, and Yal is moved to relate the story of Hulda.

"Dat bane one queer ting, Skole. I send t'ousand dollar to Hulda, to come to America to marry me, and now it bane five year and no Hulda!"

"Sure" responds Skole. "Anudder fellah, and a cottage in Helsingborg wid your money!"

The picture is jammed full of heart interest and laughs. Rogers' here

has made the best picture of his career.

The most beautiful of all short subjects, Silk Hat Harry in his cartoon comedy will start laughter from a mummy.

The name White House applied to the residence of the President of the United States, came from the fact that the building is constructed of freestone and is painted white. During the administration of Presidents Harrison and McKinley the term executive mansion was used by White House officials. President Roosevelt returned to the name White House.

Greatness in Every One's Makeup.

You were made to master unfavorable conditions, made to rise above what others regard as misfortunes, handicaps and stumbling-blocks. There is something in you that is bigger than any fate or destiny, anything which is trying to do you; something in you that is brighter than the influence of others which is trying to keep you back. There is something in you that can laugh at fate.—Orison Sweet Marden.

ADVERTISE IN THE DISPATCH

A PAST RECORD OF GOOD

RESULTS

No discovery, none excepted, is doing more to bring about a complete revolution in the healing arts than CHIROPRACTIC. This work now covers the continent. It is not an experiment, but a great health institution which daily administers to the relief of hundreds of thousands of sick and afflicted men, women and children.

DISEASE

Disease is defined as anything less than perfect health. The names which make up the catalogue of different diseases have little or no value with reference to recovering health, for all disease are merely effects of physical causes, and when those causes are removed the effects will disappear.

CHIROPRACTIC EFFECTIVE

We have successfully overcome the underlying causes of many cases of stomach trouble, bowel, liver and kidney disorders, rheumatism, neuritis, various headaches, affections of nose, throat, lungs, and other organs both acute and chronic type.

Present Telephone Rates Enjoined by the Federal Court

The enforcement of existing telephone rates in Minnesota have been enjoined by the Federal Court.

Had the present rates been continued in Minnesota this Company would sustain a loss of approximately \$1,000,000 this year. The stockholders would have to suffer this loss and in addition nothing would be earned to pay them dividends on their investment.

The Court in this case has granted partial relief because of the great need of the company and has not attempted to determine the amount required to give us a fair return on the value of our property. This amount will be determined when the case is finally disposed of.

It should be borne in mind that the company cannot meet the requirements of the public for service and make the necessary extensions to its property unless it is able to pay all expenses and a fair return upon the money invested in the business.

For extensions and betterments to our property in this state we must expend approximately \$3,000,000 each year and this money can only be secured from people who must be persuaded to invest it in our business by the offer to them of a fair return on their money.

For the present no changes will be made in the local rates at this exchange.

"You Save Money" says the Good Judge

And get more genuine chewing satisfaction, when you use this class of tobacco.

This is because the full, rich, real tobacco taste lasts so long, you don't need a fresh chew nearly as often.

And a small chew gives more real satisfaction than a big chew of the ordinary kind ever did.

Any man who uses the Real Tobacco Chew will tell you that.
